

# The smart home has arrived

## Home Automation features include:

- **Reverse cycle LG Inverter Fully Ducted Airconditioning** - zoned with extra bypass constant zone
- **iZone climate control** in all zones - saves money on running costs (up to 30% more efficient)
- **Occupancy sensing** in each of these zones. Lights turn off automatically as you leave the room (great for kids who leave lights on - saving you money)
- **iLights downlights** - Every light is dimmable (save you money, create the perfect mood)
- Light intensity monitoring feature to save on running costs. Lights will automatically adjust to light outside; bright outside, lights dim to save on power
- Party mode for your lights, the lights can resonate to the sound of music
- 100 shades of white light (mood lighting)
- 16 million colours (fun lighting)
- Can talk to Google Home (convenient, smart)
- Compatible with IFTTT (If This Then That) - example: if it rains today; then delay my watering so it runs on the next scheduled watering day to save on water use (saves you more money)
- **iPower smart power plugs** included (save money by scheduling odd appliances to save on standby power usage)
- **iZone garage door kit** included (convenient - let the tradesman or delivery man into the garage remotely)
- WIFI and 4G control of everything from your iZone screen, phone or tablet (cool the house before you get home from work)
- Holiday mode - push one button when you go away, the lights will randomly come on at night as a security feature (added security and peace of mind).

Control everything  
in your home from  
your smart device

A POWERFUL PARTNERSHIP BETWEEN
